There are also concerns that charter schools are not sufficiently integrated and may not serve students with disabilities or learning issues equitably or well. While charter schools may in some limited instances be useful for a limited time, as in the recovery of school districts after disaster, they should not displace or detract from Louisiana’s primary responsibility to ensure a quality public education for all its children.</p> <p>This particular bill seems to be a retread of SB145 from 2022, which was vetoed by then-Gov. John Bel Edwards for allowing charter school groups with a corporate partner to bypass local school boards. In his assessment, “consequences of eliminating local approval of charter schools and diverting MFP dollars far outweighs any administrative benefit that may be received.”</p> |

The League is convinced that individual rights now protected by the Constitution should not be weakened or abridged.</p> <p>The League has condemned brutality and torture in the military and policing, among other contexts. It has supported legislation banning cruel, inhuman, or degrading treatment or punishment. Such treatment should not be tolerated in the military or by the police and it certainly has no role in our schools. The proposed bill is a solution to a very real problem in Louisiana schools, including by individuals who would presume to run for seats in the Louisiana Legislature. Let's end this abuse!</p> |

These programs should provide comprehensive classroom instruction on human reproduction, parenting, sexual responsibility, and sexually transmitted diseases. They should be supplemented by opportunities for individual counseling and a district-wide policy of follow-up by school officials.</p> <p>Further, under its position on Health Care, and specifically behavioral health the League supports health education — from early childhood throughout life — that integrates all aspects of social, emotional, and physical health and wellness and efforts to avoid stigmatization of, and normalize programs that , behavioral health problems and care.</p> <p>It is hard to envision how programs of education on sexuality and health could avoid discussion of sexual orientation and gender identity as integral parts of human sexuality.</p> |

| | | | | <p>Young people who may need counseling around issues of sexuality, healthy relationships, dating violence and other important topics need to be able to communicate about matters of sexual orientation and gender identity with schoolteachers and counselors.</p> <p>Moreover, the League’s Social Policy position on Equality of Opportunity equal rights for all under state and federal law regardless of race, color, gender, religion, national origin, age, sexual orientation, or disability. We support programs that help young people of all sexual and gender orientations to be able to communicate openly about these matters for educational and counseling purposes in schools to promote comprehensive education, healthy relationships, and supportive school structure that seeks the flourishing of every student.</p> |

The League also believes that early intervention and prevention measures are effective in helping children reach their full potential. The League supports policies and programs at all levels of the community and government that promote well-being, encourage the full development, and ensure the safety of all children, but especially for children who are may be at risk in</p> |

| | | | | <p>various respects. At our 2019 LWVLA state convention, the theme was Early Childhood Education and brought a number of experts to speak on the topic and its implications for Louisiana.</p> <p>The League believes that the first five years of a child’s life are crucial in building the foundation for educational attainment and greatly impact success or failure in later life. Additionally, the League believes quality, developmentally appropriate, voluntary early learning experiences should be available to all children, with federally funded opportunities going first to children of poverty and/or with special needs. The League believes that the federal government should support the following:</p> <ul style="list-style-type: none"> • Early childhood education programs that include funding for parent education and involve child development, health, nutrition, and access to other supportive services such as mental health care for all children and their families. • Research that documents quality early childhood education programs. • Research that demonstrates the importance of linking state and local community partnerships with effective early childhood education programs and services. |

Present law requires student instruction on the following: adoption awareness, breast and cervical exams, CPR and automated external defibrillators, child assault, cursive writing, dating violence, eating disorders, internet</p> | <p>OPPOSE</p> <p>The purpose of this bill is rather vague. But the topics highlighted in the bill’s digest include a range of topics related to students’ physical and mental health and safety that would be well retained. Absent information about what BESE might supply in their stead, the League is reluctant to support doing away with the topics in student instruction and teacher training.</p> |

Present law requires teacher/school employee training on the following: adverse childhood experiences and trauma-informed education, classroom management, bullying, communicable disease and control, first aid, sudden cardiac arrest, and suicide prevention. Proposed law repeals these requirements and authorizes BESE to adopt policies that require the inclusion of certain topics in student instruction and in the training of teachers or other school employees.</p> | |
| House Education | HB334 | Beryl Amedee (R-Assumption, Lafourche, St. Mary, and Terrebonne) | <p>SCHOOLS: Authorizes school boards to provide for chaplains to serve in public schools as employees or on a volunteer basis (OR SEE FISC NOTE)</p> <p>School chaplains</p> | <p>OPPOSE</p> <p>The League’s Social Policy position on Equal Opportunity supports equal rights for all under state and federal law regardless of race, color, gender, <i>religion</i>, national origin, age, sexual orientation, or disability. Appointment of chaplains in schools risks establishing some religions over others and failing to meet the needs of non-religious students for support and guidance.</p> |

Though it repeals existing law, rather than removing criteria that charter schools must meet, it appears to supply criteria that will lead to greater consideration of economically disadvantaged students. In this way, the bill will enact important oversight over charter schools to ensure that they serve students of all exceptionalities, races, and socioeconomic backgrounds.</p> |

Proposed law provides for extending the protections and liability limitations as required in state law that is applicable to public schools, public school officers and employees to charter schools, and their officers and employees.</p> <p><i>Recommended reading:</i> https://lwvofla.org/charter-schools-consensus/ https://www.theadvocate.com/baton_rouge/news/education/league-of-women-voters-says-charter-schools-need-changes-sparking-pushback/article_6911dd8c-152f-11e9-</p> | <p>LWV of Louisiana conducted a study of charters schools beginning in 2017 that was adopted as a state position in 2019. The study was founded on the League’s overall position that a quality public education is essential for a strong, viable, and sustainable democratic society and is a civil right.</p> <p>The LWVLA study called for representative government, transparency, open government, and the Sunshine Act at each level of the governance of charter schools. The LWVLA study further called for accountability and oversight of charter schools and their contractors. The LWVLA study called for civil rights and racial integration in the authorization and administration of charter schools.</p> <p>To the extent that charter schools siphon off tax dollars from public schools, they may pose a risk to the viability and quality of public-school systems. There are also concerns that charter schools are not sufficiently racially integrated and may not serve students with disabilities or learning issues equitably or well. While charter schools may in some limited instances be useful for a limited time, as in the recovery of school districts after disaster, they should not displace or detract from Louisiana’s primary responsibility to ensure a quality public education for all its children.</p> |
