

LOUISIANA DESERVES FAIR MAPS

For more than 100 years the **League of Women Voters** of the United States has stood for voting rights, voter education, and equal representation to power our democracy. The League was born on Valentine's Day, 1920.

Since 2020, the **League of Women Voters of Louisiana** has called for **#PeoplePoweredFairMaps** to ensure a redistricting process and fair maps that represent all communities of interest in our state.

It's time for fair mapping of congressional, BESE, and PSC districts, and especially for equitable representation of voters of color in our legislature. We need **#PeoplePoweredFairMaps** to make every vote count.

Redistricting is about change. It is about Louisiana's future. It is about the future of everyone and every community in this state. The **League of Women Voters of Louisiana** supports giving maximum effect to the Voting Rights Act in **fair maps** achieved through a process of deliberation, equity, and justice.

Good things take time and stand the test of time. We've been around long enough to know. For **Valentine's Day 2022**, we'd like **#PeoplePoweredFairMaps!**

In League,
